

NEW ROCKLIN LOCATION NOW OPEN

Northern California PET Imaging Center is opening a second fixed site for PET/CT services in Rocklin, conveniently located at 3718 Atherton Road, that will replace our mobile service locations.

NCPIC of Rocklin features:

- Same great customer service
- New state-of-the-art, high resolution, digital PET/CT scanner
- Innovation features 80-slice CT with Low Dose PET®
- Focused on PET/CT imaging services in a boutique setting
- Expanded clinical research imaging
- Authorization assistance
- Same week appointment availability
- 24-hour report turnaround
- Free and convenient parking
- Over 30 years of PET/CT experience

3718 Atherton Rd, Rocklin.

Oncology Services:

- FDG for solid tumor imaging
- Axumin for prostate cancer imaging
- PSMA for prostate cancer imaging
- Ga-68 Dotatate for neuroendocrine tumor
- Cerianna for breast cancer imaging

Neurology Services:

- FDG for brain metabolism
- Amyloid for Alzheimer's disease
- Tauvid for Alzheimer's disease

Northern California PET Imaging Center

Compassion.
Experience.
Innovation.
